WAR FOOD ADMINISTRATION

The application submitted to the Deputy Order Administrator shall contain (1) a statement with respect to the location of each plant in a turkey area or areas where he is to process turkeys pursuant to the provisions hereof, and (2) a representation that 100 percent of the processed turkeys will be handled only in accordance with the provisions of this order. Thereupon, the Deputy Order Administrator shall consider such application and may issue a letter of authorization to process turkeys if he determines that such authorization is appropriate to effectuate the provisions hereof. If the Deputy Order Administrator declines to approve the application, the application shall be forwarded to the Director. The Director may issue a letter of authorization to the applicant if he determines that the issuance of such authorization is necessary or appropriate in the public interest and to promote the national defense. No person shall serve as, or represent himself

to be, an authorized processor unless he has received from the Deputy Order Administrator or the Director a letter of authorization, as aforesaid; and an authorized processor shall not process turkeys except in the turkey area or areas specified in the letter of authorization issued by the Deputy Order Administrator or the Director.

(c) *Restrictions.* (1) No person, except as hereinafter provided, shall (i) sell, contract to sell, give, or deliver turkeys or processed turkeys or (ii) purchase, contract to purchase, receive, or accept delivery of turkeys or processed turkeys.

(2) No person, other than an authorized processor, shall process turkeys within a turkey area or areas.

(3) No person shall ship turkeys grown or located in a turkey area to any point outside of such area, except to an authorized processor in an adjoining turkey area; and no person shall accept delivery of turkeys grown or located in a turkey area different from the one in which such delivery of turkeys is effectuated, except an authorized processor may accept delivery of turkeys grown or located in a turkey area adjoining the turkey area in which the delivery of such turkeys is effectuated.

(4) Notwithstanding the provisions of (c) (1) and (c) (3) hereof, turkeys may be sold and delivered to, and purchased and delivery accepted by, a turkey buyer or an authorized processor. A turkey buyer may purchase and accept delivery of turkeys only in the event such turkeys are to be resold and delivered by him to an authorized processor.

(5) Each authorized processor shall set aside and thereafter hold 100 percent of the turkeys processed by him. The processed turkeys set aside or required to be set aside by an authorized processor may be sold or delivered by the authorized processor only to the U. S. Army Quartermaster Market Center, to a wholesale receiver, or such may be delivered to a cold storage warehouse. Each authorized processor who sells or delivers processed turkeys to a wholesale receiver, or who delivers processed turkeys to a cold storage warehouse, shall deliver, with each such shipment or delivery of processed turkeys, a certificate in duplicate, signed by him, in substantially the following language (with the appropriate information inserted in the blank spaces):

This is to certify that ----- pounds of processed turkeys hereby delivered are processed turkeys set aside pursuant to the provisions of War Food Order No. 106, issued by the War Food Administrator on July 11, 1944, and you are required, pursuant to the provisions of said order, to set aside and hold said processed turkeys in accordance with the provisions of said order.

(Signature of authorized processor)

This will acknowledge receipt of the above indicated quantity of processed turkeys set aside pursuant to War Food Order No. 106.

(Signature of wholesale receiver or cold storage owner or operator)

The aforesaid certificate shall be signed in duplicate by the person who accepts delivery, as aforesaid, of the

processed turkeys, and such person shall return the original to the authorized processor, and shall retain the copy for two years after the date of receipt thereof.

(6) No person owning processed turkeys set aside or required to be set aside hereunder shall use such processed turkeys, in any manner whatsoever, or permit the use of such processed turkeys by another.

(7) Each wholesale receiver who purchases or accepts delivery of processed turkeys shall set aside and hold such processed turkeys until such processed turkeys are (i) purchased or rejected by the U. S. Army Quartermaster Market Center, (ii) released by the U. S. Army Quartermaster Market Center for sale to another governmental agency, or (iii) released by the Director.

(8) Notwithstanding the provisions of (c) (1), (c) (5) and (c) (6) hereof, processed turkeys set aside or required to be set aside hereunder may be sold, delivered, used, or removed from storage, subject only to the provisions of (c) (9) hereof, if such processed turkeys are offered, in writing, for sale to the U. S. Army Quartermaster Market Center and rejected by said U. S. Army Quartermaster Market Center.

(9) The owner or operator of cold storage, wherein processed turkeys are set aside or required to be set aside, may permit the removal of processed turkeys, set aside or required to be set aside hereunder, from cold storage, owned or operated by him, only if he obtains a certificate from the owner of such processed turkeys stating that (i) the processed turkeys have been purchased or rejected by the U. Army Quartermaster Market Center or the U. S. Army Veterinary Corps.

(d) *Releases.* (1) If an owner has less than 25 turkeys and there is no authorized processor situated within 100 miles of the farm where the turkeys are located, and such owner makes written application to the Dairy and Poultry Field Representative, Office of Distribution, War Food Administration, for the release of the turkeys, said Dairy and Poultry Branch Field Representative may release the turkeys for local consumption. If, however, the released

turkeys are purchased by a turkey buyer or an authorized processor, such turkeys shall again become subject to the restrictions of this order.

(2) The Director may, notwithstanding the provisions hereof, release any turkeys or processed turkeys from the restrictions hereof if the Director determines that such release is necessary or appropriate in the public interest and to promote the national defense.

(e) *Exemption.* The provisions of this order shall not apply to turkeys used for home consumption by the owner of the turkeys.

(f) *Records and reports.* (1) Each authorized processor shall notify the designated U. S. Army Quartermaster Market Center for the State where said authorized processor has processed turkeys, at least 72 hours prior to the time when such processed turkeys will be available for inspection, that the processed turkeys will be available for inspection at the authorized processor's plant, the cold storage warehouse, or the wholesale receiver's warehouse. The notification shall state where the processed turkeys will be available for inspection, when shipment is to be made to the cold storage warehouse or wholesale receiver, and to whom payment is to be made if the processed turkeys are sold to the U. S. Army Quartermaster Market Center.

(2) Each wholesale receiver who receives processed turkeys shall, upon receipt of such processed turkeys, notify the Officer in Charge, Field Headquarters, Perishable Section, Subsistence Branch, Office of the Quartermaster General, Attention: Poultry Section, 222 West Adams Street, Chicago 6, Illinois. The aforesaid notice may, however, in lieu of the foregoing, be sent to the designated U. S. Army Quartermaster Market Center for the State in which the processed turkeys are located. Each wholesale receiver who receives processed turkeys shall, at least 72 hours prior to the time when such processed turkeys will be available for inspection, give notice, as aforesaid, with respect to the arrival of such processed turkeys and when such turkeys will be available for inspection at the address stated in said notice.

(3) The Director shall be entitled to obtain such information from, and require such reports and records by, any person as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(4) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in turkeys and processed turkeys.

(g) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of turkeys or processed turkeys of any person, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(h) *Contracts.* The restrictions of this order shall be observed without regard to contracts heretofore or hereafter entered into, or any rights accrued or payments made thereunder.

(i) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Such petition shall be addressed to Order Administrator, War Food Order No. 106, Dairy and Poultry Branch, Office of Distribution, War Food Administration, Washington 25, D. C. Petition for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Director. If the petitioner is dissatisfied with the action taken by the Order Administrator on the petition, he shall obtain, by requesting the Order Administrator therefor, a review of such action by the Director. The Director may, after said review, take such action as he deems appropriate, and such action shall be final. The provisions of this paragraph (i) shall not be construed to deprive the Director of authority to consider originally any petition for re-

lief from hardship submitted in accordance herewith. The Director may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(j) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using turkeys or processed turkeys. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

ASHLEY SELLERS,
Assistant War Food Administrator.

War Food Administration,
Summary to WFO 106.

WFA ANNOUNCES TURKEY SET-ASIDE ORDER

Our American armed forces stationed overseas and in this country will have their turkey dinner on Thanksgiving, Christmas and New Year's Day this year. Holiday turkey—a tradition in the armed forces as well as for the rest of the Nation—will be obtained this year under a set-aside order announced today by the War Food Administration to become effective July 17, 1944.

While the actual quantity required for holiday dinners for all of the armed forces may not be disclosed, it is in addition to the 8 million pounds of hen tur-

keys obtained under WFO 97, recently terminated, and is likely to exceed the 35 million pounds obtained under a WFA embargo order last year.

The new set-aside order WFO No. 106 will be operated in 24 designated States and in 5 Virginia, 3 West Virginia, and 9 Maryland counties, representing the Nation's major turkey producing areas. Operating similarly to the program in effect last year, it requires the set-aside of 100 percent of the turkeys produced and marketed in these areas, until the quantity needed is obtained. The turkeys marketed must be slaughtered by authorized processors and held for sale and delivery to the QMC, or to a wholesale receiver, or cold storage for ultimate sale to QMC. Authority to process

the turkeys for the QMC may be obtained by application by wire or letter to the administrator of the order.

Turkeys sent to American fighting forces overseas have played an important role in the building and maintenance of morale ever since war began. They have been sent by ship, plane, truck, jeep, muleback and manback to battle fronts in every part of the world where our soldiers, sailors, and airmen were fighting.

Last year turkeys provided the feature course of meals served to combat troops on Thanksgiving, Christmas and New Year's day in Guadalcanal, and the Solomons. Sailors and Marines wounded in the bloody fight on Tarawa ate turkey in sick bay aboard the ships that evacuated

them from the island. Turkeys were cooked in the galleys of American fighting surface ships and submarines in the Pacific, the Atlantic and the Mediterranean. They supplied traditional American holiday dinners for our fighting forces in North Africa and Italy and for millions of American soldiers in England then in training or poised for "D" day—the successful invasion of France and Hitler's "impregnable" fortress.

This year some of the turkeys produced on American farms also will find their way to fighting fronts in Europe, Asia and the Pacific to give our combat forces a taste of home as they drive our enemies closer and closer toward defeat.

Due to favorable weather and growing conditions thus far in the Nation's major turkey-producing areas turkey slaughter in 1944 is expected to total 480 million pounds compared with an actual total of 466 million pounds last year. Since requirements for the armed forces are greater this year, however, the supply of turkeys available for civilians will be somewhat smaller.

It is expected that civilians will have available about 3 pounds of turkey per capita this year. This is about a quarter-pound less than the per capita quantity last year, but is larger than the average per capita consumption of 2.6 pounds in the prewar years 1935-39.

States and counties designated as "turkey areas" under the set-aside order are: Minnesota, Iowa, Missouri, Arkansas, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Montana, Wyoming, Colorado, New Mexico, Idaho, Utah, Arizona, Nevada, Washington, Oregon, California, Wisconsin, Illinois, Delaware, Virginia counties of Rockingham, Shenandoah, Augusta, Northampton and Accomac, West Virginia counties of Hardy, Pendleton and Grant, and the Maryland counties of Cecil, Kent, Queen Anne, Caroline, Dorchester, Wicomico, Worcester, Somerset, and Talbot.

Turkeys marketed in all other States and areas may be sold in civilian trade channels without restriction and the order covering the designated turkey areas will be lifted as soon as the QMC has obtained the required quantity of turkeys.

Turkeys processed in the designated States and counties may be sold directly to the QMC by processors or through

wholesale receivers. Wholesale receivers, however, are required to notify QMC Field Headquarters at Chicago, Ill., or their designated Quartermaster Market centers, of the turkeys received from authorized processors.

Army Quartermaster Market Centers, which will buy the turkeys processed in each designated State or County are:

WAR FOOD ORDER NO. 106

Questions and Answers

This statement, prepared for general distribution, is intended to answer some of the questions which may be raised in the administration of the order. For further information write to the Order Administrator, War Food Order No. 106, Dairy and Poultry Branch, Office of Distribution, War Food Administration, Washington 25, D.C.

War Food Order No. 106 was issued on July 11, 1944, as a means of assuring a supply of turkeys for holiday requirements of the armed forces. Through this order it is expected that the United States Army Quartermaster Corps will purchase all the turkeys which meet their specifications, in the designated areas, during the period that the order is in effect; thus providing enough turkeys which can be processed and sent overseas in time for use by the armed forces, for holiday dinners at Thanksgiving, Christmas and New Year's Day. The turkeys obtained under this order will supply that part of the need not met by the supply which was purchased earlier this year under War Food Order No. 97.

1. Q - To whom does this order apply?

A - The order applies to everyone in designated areas growing turkeys, processing turkeys under authorization, or purchasing live turkeys; also, those wholesale receivers and cold storage warehouses that handle set-aside processed turkeys.

2. Q - What are the designated turkey areas?

A - Minnesota, Iowa, Illinois, North Dakota, South Dakota, Nebraska, Kansas, Missouri, Oklahoma, Texas, California, Oregon, Washington, Colorado, Utah, Wisconsin, Idaho, Wyoming, Nevada, Arizona, New Mexico, Montana, Arkansas, and Delaware; and, also, each of the following specified groups of counties in a State shall constitute a "turkey area": Rockingham, Shenandoah, Augusta, Northampton, and Accomac Counties in Virginia; Hardy, Pendleton, and Grant Counties in West Virginia; and Cecil, Kent, Queen Anne, Caroline, Dorchester, Wicomico, Talbot, Worcester, and Somerset Counties in Maryland.

3. Q - How does the order affect turkey growers in designated turkey areas?

A - Growers of turkeys in designated areas may sell turkeys only to authorized processors or to turkey buyers who resell to authorized processors.

4. Q - How does the order affect turkey processors?

A - No turkey processor in a designated area may process turkeys until authorized by the Deputy Order Administrator, War Food Order No. 106, 2114 Mallery Building, 5 South Wabash Avenue, Chicago, 3, Illinois.

5. Q - How does the order affect authorized processors in the designated areas?

A - An authorized processor must set aside and hold for sale to the QMC all turkeys processed; he may sell such turkeys to a wholesale receiver for ultimate sale to the QMC, or he may place such turkeys in cold storage to be held for sale and delivery to the QMC.

6. Q - How does the order affect wholesale receivers?

A - Wholesale receivers who have set aside turkeys delivered to them must hold such turkeys for sale and delivery to the QMC.

7. Q - Are processed turkeys which were in cold storage on the effective date of the order subject to the 100 per cent set-aside provisions of the order?

A - No. Processed turkeys in cold storage prior to the effective date of the order are not subject to the 100 per cent set-aside provisions of the order.

8. Q - Are turkeys grown and processed outside the designated areas subject to the provisions of the order.

A - No. Even though they are not required to do so, growers outside the designated areas are urged to sell their turkeys to processors delivering turkeys to the QMC whenever this is convenient. Similarly processors outside the designated areas are urged to offer their turkeys to QMC until the requirements of the armed forces are met.

9. Q - Are all turkeys processed in the designated areas to be purchased by the United States QMC?

A - The QMC will purchase all processed turkeys offered if such turkeys meet the specifications of the QMC. All processed turkeys which do not meet the QMC specifications will be rejected and released for civilian consumption.

10. Q - Is any further release necessary after the QMC has rejected processed turkeys which do not meet their specifications?

A - No. The QMC rejection will be considered an automatic release and rejected processed turkeys may then be used for civilian consumption.

11. Q - May growers of small flocks of turkeys be released from the provisions of the order, upon request?

A - Any turkey grower who has less than 25 turkeys, located more than 100 miles from the plant of an authorized processor, may petition the Dairy and Poultry Branch Field Representative, Office of Distribution, War Food Administration, in his area, to release such turkeys for local consumption. However, if the turkeys are purchased by a turkey buyer, or an authorized processor, such turkeys again become subject to the restrictions of the order.

12. Q - Who are the Dairy and Poultry Branch Field Representatives?

A - The names and addresses of the Dairy and Poultry Branch Field Representatives are as follows:

Issued this 4th day of November 1944.

MARVIN JONES,
War Food Administrator.

War Food Administration,
Summary to WFO-106 as Amended, Partial Suspension.

Turkeys processed after midnight November 5 may be sold through usual trade channels, the War Food Administration said today in announcing partial suspension of War Food Order 106 which required that all turkeys marketed in specified regions be offered to U. S. Army Quartermaster Corps market centers. In addition turkey producers are no longer obligated to sell their turkeys to authorized processors.

Turkeys processed prior to the suspension, however, must continue to be offered exclusively to the QMC before they

can be disposed of elsewhere, under an amendment to WFO 106 which still remains in force.

The Armed Forces have not yet been offered sufficient turkey to enable them to take care of all their requirements and must continue to purchase turkeys. Military authorities have agreed to partial suspension of the set-aside order, however, so that turkeys may be marketed in time for civilian Thanksgiving dinners. WFA and QMC officials are hopeful that turkeys now in storage or in transit and still subject to the Order will help the Armed Forces complete their procurement program. They also will be dependent upon the fulfillment of contracts made for the future delivery of turkeys.

Even with processors able to sell newly-processed turkeys to regular commercial markets, turkey supplies for civilian Thanksgiving dinners will be short of demand, WFA officials predicted. Turkey production this year is expected to be the largest on record—more than 500,000,000 pounds dressed weight, compared with 466,000,000 pounds in 1943 and 422,000,000 pounds in 1939.

Officials pointed out also that insufficient labor in processing plants to handle the rush of turkeys which always come to market after November 1 probably will slow up marketing and distribution. They said that supplies reaching civilian retail outlets will be considerably larger for Christmas and New Year's Day dinners.

Issued this 2d day of October 1944.

ASHBY SELLERS,
Assistant War Food Administrator.

War Food Administration,
Summary to WFO-106 Amendment 1.

War Food Administration has announced an amendment to WFO 106 requiring that dressed turkeys set-aside, in storage, and not offered to the U. S. Army Quartermaster Corps, must remain in set-aside status on the suspension or termination of the order. This means, officials said, that holders of turkeys are not relieved of their responsibility under the order upon suspension of its restrictive measures until the turkeys they hold have been offered to the QMC, and sold to or rejected by the QMC. This measure is intended to speed up offerings to the QMC and thus hasten termination of the order.

The order, calling for the set-aside of 100 percent of the turkeys marketed and processed in designated States and areas, will not be terminated until the QMC, purchasing for all of the armed services, obtains enough to supply the holiday needs for American fighting forces stationed overseas and in this country. This will require at least 60 million pounds.

The amendment also provides for the authorization of processors whose plants are located outside of designated States and areas. This measure is directed toward expediting processing of turkeys produced in States where there are relatively few processors since it permits producers to ship their live turkeys to authorized processing plants located in non-designated States and areas.

A Director's Order, accompanying the amendment, requires that dressed turkeys set-aside and placed in storage after July 17, be reported to the nearest Army Market Center by October 4, 1944, and that turkeys set-aside and stored after the effective date of the Director's Order must be reported within 10 days after storing, unless previously offered to the QMC.

This action, taken to speed up procurement of turkeys needed by the armed forces overseas, becomes effective immediately, but does not apply to dressed turkeys previously offered to the U. S. Army Quartermaster Corps and released for use in civilian trade channels. Reports must be made by owners of 5,000 pounds or more in storage.

ASHLEY SELLERS,
Assistant War Food Administrator.

War Food Administration, Summary to WFO-106 Amendment 3.

Turkey for the holiday dinners of the U. S. Armed Forces this year will be obtained under a 100 percent set aside order, effective April 8, 1945, the War Food Administration announced today. By this action, American service men and women, overseas and in this country, are assured of a meal of the traditional bird, no matter where they are stationed.

The procurement program will operate under an amendment to WFO 106, as amended, which was suspended November 6, 1944, following fulfillment of 1944 requirements for the armed forces. This amended order has been reinstated

and revised to include procurement of hen turkeys normally marketed in April, May and June, as well as 1945-crop turkeys marketed in the late summer and fall season.

Requirements for the Army, Navy, Marine Corps and all other branches of the armed services this year, may exceed the quantity obtained last year under WFO 97, the hen turkey order, and WFO 106. The revised order will remain in effect until the full quantity of turkeys needed is purchased by the U. S. Army Quartermaster Corps for all of the armed services. While most of the supply will be used to provide holiday dinners, a part of the overall requirement may be

used under the current military program for canned poultry.

Current estimates point toward a record production of 515 million pounds of turkey in 1945 as compared with 507 million pounds produced last year. Supplies available to civilians as a result are expected to amount to about 3.3 pounds per capita, compared with 3.1 pounds per capita consumed by civilians in 1944.

The revised order will operate in the "turkey area" including all plants of authorized processors, the States of Minnesota, Illinois, Iowa, North Dakota, South Dakota, Nebraska, Kansas, Missouri, Oklahoma, Texas, California, Oregon, Washington, Colorado, Utah, Wis-

consin, Idaho, Wyoming, Nevada, Montana and Arkansas, and in Augusta, Rockingham, Page, Shenandoah, and Frederick counties in Virginia, and Hardy, Pendleton, Grant, and Hampshire counties in West Virginia.

Turkeys produced and marketed in all other States and areas may be sold to civilians without restrictions.

The order requires the setaside of all turkeys marketed in the restricted areas. They must be slaughtered by authorized processors and held for sale and delivery to the QMC or to a wholesale receiver, or delivered to cold storage for ultimate sale to the QMC.

Each turkey processor must apply by letter or wire to the Deputy Order Administrator for authorization and must state: that he has read WFO 106, as amended; the location of the plants in which he expects to process the turkeys; that each plant is approved by the U. S. Army Veterinary Corps; that the processor agrees to process turkeys and to pack and package the processed turkeys according to U. S. Army specifications; and that all processed turkeys will be handled only pursuant to WFO 106, as amended.

Turkeys processed in turkey areas may be sold directly to the QMC or through wholesale receivers. Authorized processors and wholesale receivers are required to notify the U. S. Army Quartermaster Market Center nearest to the point of storage of their turkeys.

Questions and Answers

This statement is intended to supply the answers to some of the questions which may be raised in the administration of War Food Order No. 106, as amended. For further information, write to the Order Administrator, War Food Order No. 106, Dairy and Poultry Branch, Office of Marketing Services, War Food Administration, Washington 25, D. C.

War Food Order No. 106, as amended, was partially suspended November 6, 1944. The order was thereafter amended, effective April 8, 1945. The amended order is designed, as was the original order, to procure turkeys for the requirements of the Armed Services.

1. Q. To whom does War Food Order No. 106, as amended, apply?

A. The order applies to every producer or owner of turkeys grown or located in a turkey area, to all authorized processors, to turkey buyers, to wholesale receivers who purchase set-aside processed turkeys and to owners or operators of cold-storage plants where set-aside processed turkeys are stored.

2. Q. What is a turkey area?

A. A turkey area means each of the following States:

Minnesota, Iowa, Illinois, North Dakota, South Dakota, Nebraska, Kansas, Missouri, Oklahoma, Texas, California, Oregon, Washington, Colorado, Utah, Wisconsin, Idaho, Wyoming, Nevada, Montana, and Arkansas; each of the following specified groups of counties in a State: Rockingham, Page, Shenandoah, Augusta, and Frederick in Virginia; and Hardy, Pendleton, Grant, and Hampshire in West Virginia; and each plant of an authorized processor in which such processor is authorized to process turkeys.

3. Q. How does the amended order affect turkey producers in a turkey area?

A. Producers of turkeys in a turkey area may sell turkeys only to:

(1) an authorized processor; or

(2) a turkey buyer for resale to an authorized processor.

4. Q. How does the order affect a turkey processor?

A. The order affects a turkey processor in several ways, as follows:

- (1) If he is located in a turkey area or accepts turkeys from a turkey area and desires to process turkeys, he must become authorized to do so.
- (2) He must set aside and hold all turkeys processed by him until they are:
 - (a) purchased or rejected by the U. S. Army Quartermaster Market Center;
 - (b) released by the U. S. Army Quartermaster Market Center for sale to another governmental agency;
 - (c) delivered or sold to a wholesale receiver; or
 - (d) released by the Director of the Office of Marketing Services.
- (3) He must process turkeys and pack all processed turkeys according to the specifications of the U. S. Army and the provisions prescribed in the amended order.
- (4) He must make reports to the Deputy Order Administrator as required in the amended order.

5. Q. How does a turkey processor become authorized?

A. A turkey processor becomes authorized by applying, in writing, to the Deputy Order Administrator, and including in this application statements and representations covering the following:

- (1) That the applicant has read War Food Order No. 106, as amended;
- (2) The location of each plant where turkeys are to be processed;
- (3) That each plant is approved by the U. S. Army Veterinary Corps;
- (4) That all turkeys processed in each such plant will be processed, packaged, and packed as specified by the U. S. Army;
- (5) That all processed turkeys will be handled only in accordance with the provisions of War Food Order No. 106, as amended.

6. Q. When does a turkey processor need to become authorized?

A. A processor must become authorized before he engages in any of the operations of an authorized processor subject to WFO 106, as amended. Persons who hold letters of authority to act as authorized processors under WFO 106, as amended on October 4, 1944, may operate under such authorizations until April 30, 1945. All letters of authority issued to authorized processors to become effective prior to April 30, 1945, will be terminated on April 30, 1945. Consequently, persons desiring to process turkeys in accordance with the present order after that date must submit new applications to do so.

7. Q. Is custom processing permitted under the amended order?

A. Yes. Any person who wishes to have turkeys custom processed must apply to the Deputy Order Administrator to become an authorized processor. Such a person may use the plant of the custom processor as his plant. A letter of concurrence in the application by the custom processor should accompany such an application.

8. Q. How does the order affect a wholesale receiver?

A. A wholesale receiver must set aside and hold all processed turkeys received by him until they are:

(1) purchased or rejected by the U. S. Army Quartermaster Market Center;

(2) released by the U. S. Army Quartermaster Market Center for sale to another governmental agency; or

(3) released by the Director of the Office of Marketing Services.

9. Q. Are turkeys processed outside a turkey area and later moved into a turkey area subject to the provisions of the amended order?

A. Yes.

10. Q. How does the amended order affect a turkey buyer?

A. Under the amended order, a turkey buyer may not purchase any turkeys unless such turkeys are to be resold and delivered by him to an authorized processor.

11. Q. How does the order affect the owner or operator of a cold storage plant?

A. The owner or operator of a cold storage plant must:

(1) Sign and return certificates to authorized processors or wholesale receivers who deliver processed turkeys covered by the amended order to cold storage.

(2) Surrender to the Director of Marketing Services any or all certificates, which are required to be retained by such person, when requested by the Director.

(3) Make all processed turkeys covered by the amended order available for inspection upon request by the U. S. Army Veterinary Corps or the U. S. Army Quartermaster Market Center.

12. Q. Are processed turkeys in cold storage at the effective time of the present order subject to the provisions of such order?

A. Processed turkeys in cold storage at the effective time of the present order and not subject to the provisions of section 1414.5 (c) (11) of War Food Order No. 106, as amended on October 4, 1944, are not subject to the provisions of the present order.

13. Q. Are turkeys grown outside a turkey area subject to the present order?

A. Turkeys grown outside a turkey area are subject to the order only if they are delivered into a turkey area.

14. Q. Can a turkey processor located outside a turkey area become authorized?

A. Yes. The plant of any such processor, when authorized, becomes a turkey area.

15. Q. Who may purchase processed turkeys which are covered by the present order?

A. Only a wholesale receiver or the U. S. Army Quartermaster Market Center may purchase such processed turkeys except that another governmental agency may purchase processed turkeys if and when such processed turkeys are released to such governmental agency by the U. S. Army Quartermaster Market Center.

16. Q. What further release is necessary to remove processed turkeys from the provisions of the amended order after the U. S. Army Quartermaster Market Center has rejected such processed turkeys?

A. None.

17. Q. May an owner of a small flock of turkeys be released from the provisions of the amended order, upon request?

A. Any owner who has less than 25 turkeys located on a farm more than 100 miles from the nearest plant of any authorized processor, may petition the Dairy and Poultry Branch Field Representative, Office of Marketing Services, War Food Administration, serving his area, for the release of such turkeys. If the turkeys are released and later purchased by a turkey buyer or an authorized processor such turkeys again become subject to the restrictions of the amended order.
